

Lead Based Paint Certified Renovator Training

A federally mandated certification provided in conjunction with the National Center for Healthy Housing

Date: Tuesday, February 23rd
Thursday, March 4th
Tuesday, March 23rd

Time: 8:00am - 5:00pm

Location: HBA Conference Room

Register today! Maximum of 10 students

This one-day class will give you the EPA-mandated training needed for you and/or your employees to become Certified Renovators and comply with this new federal law.

For more information on the new lead-based paint law, go to www.homebuildersassociation.org/education

Attention remodelers, painters, drywallers, window installers, electricians, plumbers, carpenters and anyone else who works on pre-1978 homes!

Under new EPA rules that go into effect in April, 2010, contractors performing renovation, repair and painting projects that disturb lead-based paint in homes, child care facilities and schools built before 1978 must be certified and must follow specific work practices to minimize occupants' exposure to lead hazards.

All individuals performing activities that disturb painted surfaces must be certified renovators or have been trained by a certified renovator. A certified renovator must also be assigned to each renovation and perform all of the EPA-mandated responsibilities of a certified renovator.

Fines for non-compliance are anticipated to be \$5,000 per day, per jobsite.
