

# Benefits of Good Housekeeping

## OHBA Safety Pages

The lack of proper housekeeping on the job is one safety hazard common to all construction sites and manufacturing shops. Good housekeeping is one item that can help improve not only the safety on the job, but also the morale and productivity of the job.

- Helps to limit potential of slips, trips and falls from spills or cluttered floor or ground areas.
- Increases production and efficiency of the operation. Time is not spent maneuvering over or around someone else's mess or looking for proper tools and materials.
- Helps to prevent a fire that could cause an injury and/or shut down the job site.
- Creates a good "first impression" of workplace environment and reflects well on the quality of work.
- Keep scrap lumber with protruding nails separate from other debris; bend nails over or remove from lumber.
- Keep all waste debris in neat piles and away from the immediate work area.
- Store materials only in their designated areas.
- Place trash barrels where needed to eliminate food and other lunch debris.
- Keep tools and equipment stored neatly.
- Keep extension cords from being trip hazards. If necessary, run them overhead; same applies to air compressor hoses.
- Don't let trash and debris build up. If it does, make an extra effort to get it cleaned up.

### Good Housekeeping Can:

- Help to prevent minor injuries like cuts, punctures, slivers.
- Help prevent major accidents like slips, trips, falls and fires.
- Also help to prevent strains and sprains from not having to lift, push or pull material or equipment from around or over debris.

The information we provide is not intended to include all possible safety measures and controls. In addition, the safety information we provide does not relieve the Members of its own duties and obligations with regard to safety concerns, nor does Oregon Home Builders Association guarantee to the Members or others that the Member's property, job sites and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The Members remain responsible for their own operations, safety practices and procedures and should consult with legal counsel as they deem appropriate.
